DINESH E

Full-Stack Developer | React.js & Django

+91 86675 46474 | dhinesheditz@gmail.com | Thiruvarur, India

Portfolio: dineshezhil.netlify.app | LinkedIn: linkedin.com/in/dinesh8667 | GitHub: github.com/dinesh8667

PROFESSIONAL SUMMARY

Full-Stack Developer with a B.E. in Artificial Intelligence and Data Science and hands-on experience building end-to-end web applications using React.js, Django, and MySQL. Proficient in RESTful API design, JWT/Firebase authentication, and responsive UI development with Redux Toolkit, Bootstrap, and Tailwind CSS. Experienced in Agile/Scrum workflows, Git version control, and crossfunctional collaboration to deliver scalable, production-ready applications.

TECHNICAL SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), Component-Based Architecture

Frameworks & Libraries: React.js, Redux Toolkit, Bootstrap, Tailwind CSS, SASS/SCSS, LESS

Backend Technologies: Python, Django, Django REST Framework, Node.js

Databases: MySQL, PostgreSQL

APIs & Authentication: RESTful APIs, JWT Authentication, Firebase Authentication, Third-Party API Integration

Tools & Platforms: Git, GitHub, Postman, AWS

PROJECTS

Fashion E-Commerce Platform | *React.js, Django REST Framework, MySQL, JWT*

- Designed and implemented a responsive, user-centric e-commerce interface using React.js and Bootstrap, covering product catalog, search, filtering, cart, and checkout flows optimized for usability across devices.
- Built secure user sessions with JWT authentication on a Django REST Framework backend with MySQL.
- Integrated MediaPipe and Gemini APIs to deliver an AI-powered virtual try-on and size recommendation feature, achieving 94% size recommendation accuracy while enhancing the user experience and reducing purchase uncertainty.

Grandoria Collections–Resort & Adventure Booking Platform | *React.js, Firebase, REST API, JSON-Server*

- Led front-end UI/UX development for a resort and travel booking platform, designing a responsive interface using React.js, HTML5, CSS3, and Bootstrap across desktop and mobile breakpoints.
- Implemented Firebase authentication, shopping cart, and user profile management with REST API integration via JSON-Server.
- Managed Git/GitHub version control and conducted UI code reviews in a collaborative Agile workflow

Full-Stack Real Estate Marketplace | *React.js, Django, JWT, RBAC, PostgreSQL*

- Built responsive, role-based property dashboards using React.js with JWT authentication and role-based access control (RBAC).
- Designed advanced search and filtering UI along with a secure multi-image upload interface for property listings.
- Developed and optimized RESTful backend APIs using Django to support fast, seamless front-end interactions.

PROFESSIONAL EXPERIENCE

Full-Stack Development Intern— HCLTech, Chennai

Jan 2025 – Apr 2025

- Built responsive front-end interfaces and integrated back-end logic using Python, contributing to functional and user-friendly web application features.
- Collaborated cross-functionally in an Agile environment, participating in daily stand-ups and sprint planning to align design and development priorities.
- Implemented UI components with attention to usability and cross-browser consistency.

Python Full-Stack Development Training — Besant Technologies, Bengaluru

Jan 2026 – Jul 2026

- Completed hands-on training in front-end and full-stack development, strengthening responsive design and component-based UI development skills.
- Practiced structured, project-based workflows covering UI implementation, API integration, and performance considerations.
- Practiced full-stack development workflows through structured, hands-on project work.

AI Support / Technical Support Intern — Bipolar Factory Private Limited

Mar 2026 – Jul 2026

- Provide L1 support for technical and application issues, identifying the cause through basic troubleshooting.
- Monitor dashboards, data counts, and application status to detect issues early.
- Use Excel to check, validate, and analyze data for accuracy.
- Escalate complex issues to L2 support with clear details, and document issues following support procedures.

EDUCATION

B.E., Artificial Intelligence and Data Science | CGPA: 8.1/10

Vinayaka Mission's Kirupananda Variyar Engineering College, Salem, India | Aug 2022–Apr 2026
